

**EDAGUM®SM
PLANT AND SOIL TREATMENT**

EDAGUM®SM has a unique organic activity and prolonged action: from the moment of seeds germination up to ripening of the yield. It increases the productivity of different cultures on 10-50%; decreases application rates of agrochemicals on 20-40%; removes stress from pesticides and agrochemicals; maintains plant resistance to bacterial and fungi diseases as well as to drought, overwetting, frosts and others; improves the production quality; maintains soil water-holding capacity and fertility; bonds pesticides residues, heavy metals, and radionuclides in soil; prevents their input into plants and soil-ground waters

Association Of American Plant Food Control Officials (AAPFCO)

CONTAINS NONPLANT FOOD INGREDIENT:

1.47% Humic Acids (from peat)
Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.html>
